PLAN AHEAD, BE READY & SHOP SMART

Get ahead and start your school uniform shopping between April and June to make sure you're all set for the new school year in September!

August and September can get super busy, especially right before school starts. Sizes tend to sell out fast, so don't leave it too late!

To avoid the stress of long queues and last-minute stock sell outs, try to shop early—especially before the final two weeks of the school summer holidays.

Keep growth in mind when shopping, and don't worry—we've got you covered!

If sizes don't quite fit, you can exchange them right up until school starts in September.-
